

Nedo Super Measuring Wheel, with railroad track guide. Perfect when measuring distances on railway tracks.

Nedo Super Measuring Wheel

For accurate measurement of long distances.

Nedo measuring wheels are ideal for accurate measurement of distances in road construction, walkway construction and track laying.

The Nedo **Super measuring wheel** meets the highest standards in terms of precision, quality and reliability.

Thanks to tight manufacturing tolerances and a high-quality counter, its accuracy is $\pm 0.02\%$, which corresponds to a maximum error of **± 2 cm over a distance of 100 m**. The counter, which has a display resolution in cm, is mounted securely above the wheel and is driven by a toothed belt. Zero setting is done with a hand lever.

The brake is integrated into the sturdy rest support. The ergonomic pistol grip and the rugged aluminium guide bar make handling easy at all times. A clever mechanism permits the guide bar to be folded away for transport.

Transport case for Nedo Super measuring wheel.

Nedo Super Measuring Wheel

Ref.-No.	702 111
Wheel circumference	1 m
Measuring range	0 to 9,999.99 m
Counter arrangement	central
Resolution	0.01 m
Weight	approx. 3.65 kg
Tolerance	$\pm 0.02 \%$

Nedo Railroad Track Guide

The **track guide** keeps the Nedo Super measuring wheel from slipping off the track, making it suitable for measurements on railway tracks.

It can be fitted easily without tools.

Nedo Lightweight Measuring Wheels

The Nedo **lightweight measuring wheel** stands out thanks to its sturdy, ergonomic design. The abrasion-proof precision wheel and the precision counter ensure exact measurements. The pistol grip with an integrated brake button makes handling easy. A clever hinge mechanism permits the guide bar to be folded away, reducing the package dimensions to a minimum.

Features:

- Robust and reliable
- Ergonomic design
- Precision wheel
- Precision counter with 0.01 m resolution
- Packed into a very small space

Nedo Lightweight Measuring Wheel Digital

The **lightweight measuring wheel Digital** is equipped with an easy-to-read digital display with resolution in centimeters. Various display formats m/cm, m/dm and m are optionally available. The device also features a hold function to retain the measured values and an automatic switch function.

Features:

- Power supply: 2 x 1.5 V AA
- Operation duration: more than 350 h
- Protection class: IP 65
- Automatic switch-off after 3 minutes of non-use

The Nedo lightweight measuring wheel is protected against low pressure jet water and dust in line with IP 65. After use, the lightweight measuring wheel can even be sprayed down with water to clean it.
